

Executive Director Updates

HACEMOS/AT&T

High Technology Day 2018 was a huge success! HACEMOS in a partnership with Communities In Schools of the Coastal Bend hosted over seventy five local students at the AT&T building downtown. The mission was to highlight the latest innovations in technology and discuss different careers with AT&T. Three different high schools attended; Miller, Moody and West Oso students. The students and volunteers all had a blast and are excited for next year based on surveys taken by the students.

Upcoming Events:
